

Field Light Directions...

Coaches: If you are the second game at a lighted field, please turn on lights immediately after arriving at the field for the second game. This will give AJB time to respond if there is a problem with the lights

Anderson:

Gray Light Box is on the East side of the light pole just beyond the Third Base Dug Out. Make sure the key is all the way in the slot... Turn Key.

Fairview:

Electrical Box is located right outside the First Base Line. Gray box on Light Pole has "2" Key Slots. Key Cut must be put in Left Slot Facing Up and Right Slot Facing Down.

Pepper Ridge:

Transformer Pole is located in the Parking Lot between the two fields at the North End of the Parking Lot. Slots are marked for the East and West Field. Our field is the East Field.

Ironwood:

Gray Electrical Box is located down the Right Field Foul Line with the other gray boxes on the pole. Key Slot is on the West Side of the Box.

Please make sure lights are turned off before you leave the field!

Thanks!
